## Results That Remain

Are Appreciated by Norway People.

Thousands who suffer from backache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one kidney medicine that has earned a reputation for lasting results and there is plenty of proof of its merit right here in Norway.

Here is the testimony of one who used Doan's Kidney Pills years ago and now makes his testimony even stronger.

M. M. Kilgore, Danforth St., Norway, says: "I had backache and rheumatic pains for more than a year, caused by disordered kidneys. My kidneys acted irregularly and I was so lame and sore across the small of my back I could hardly stand. At night I rested but little and was feeling miserable most of the time. I finally got Doan's Kidney Pills at F. P. Stone's Drug Store and a few boxes cured me." (Statement given July 24, 1908).

**PERMANENT RESULTS**  
On June 7, 1916, Mr. Kilgore said: "I gladly recommend Doan's Kidney Pills again as I am still a firm believer in them. The cure Doan's gave me has proven permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Kilgore had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## BROTHERHOOD

Brotherhood, O. Brotherhood of man was there ever, words more grand.

Words of love, truth and power. That do butch as nessun every hour. To the Kingdom of heaven on earth.

Brotherhood, O. Brotherhood of man. How those words our souls inspire.

They set our hearts and brains on fire. With a will to work, with might and main. On this trip, a foothold here to gain.

In this, our day. Brotherhood, O. Brotherhood of man. On this firm foundation rock we'll stand.

And build thereon for all mankind. A blessed and happy land. Brotherhood, O. Brotherhood of man. It was our hearts and brains on fire.

That we all should loving brothers be. To every soul of humanity. And to every creature he has made.

LOUIE PATCH

MY SHOOTING STAR

You may talk about Orion. And be a famous teller line. You may search out in the heavens.

All the constellations find. But my heart is in the danger zone. With a lone patrol afar.

While the keening guard in the sky—My fearless shooting star. While Cassiopeia leads a life.

And Ursula Major slowly turns. Around the Arctic air. While the stars stand aloof.

In attitude so prim. My star is shooting over-time. Not one is setting, and no one is rising.

Of all the stars up in the sky. That merely blink and shine. Not one is setting, and no one is rising.

Like this lone star of mine. He shines through space afar. He speeds through space afar.

And fights his battles in the clouds—My fearless shooting star! ALMA PENDEXTER HAYDEN.

WE'RE OFF AT LAST

(This poem was written by John Hurvey of Boston on the ship Olympia in Havana, Cuba, Jan. 1906. Frank Jewell of Norway was a first class fireman on the ship for three years and seven months, and present on this trip.)

We remember with joy the visit we made. To Europe, not long ago. On the Olympia.

With our pockets full of dough. The time that we spent there was pleasant. Except on a few occasions.

When the ships got tangled with schooners. That resulted in dangerous collisions. We visited Morocco, Spain and France.

England, Italy and Norway. And the beautiful city of Nice. To get it said it was a dream.

(But it was of short duration). Surrounded by girls of a lovely hue—The fairest of God's creation.

These girls were light-hearted and free. And full of fascination. But they could not make us quite forget.

The girls of our own nation. But at last we steered for the evening star. Our faces were turned toward the ones we loved.

With the thoughts of them in mind. Then to San Domingo we were sent. To patrol for a month or two.

But then our time was extended. And we had four times two to do. We did it without a murmur.

And said it was a pleasure. Where we held our target practice. And "maneuvers" for awhile.

We're off at last! The joyous cry. With laughter, went ringing forth. When the Olympia sailed from Ouleba.

For the beautiful shores of the North.

THE OLD MIRROR

The old mirror hangs on the stately wall. Where it hung in days gone by. The generations have lived here and died.

In the crypt of earth they lie. The sunlight falls over its gilded frame—The twilight comes and goes. Other feet walk through this ancestral room.

Across it, summer winds blow. The air is perfumed with roses of June. When the first sweet bride came home.

In her wedding dress, all flowered and gay. From France, brought over the foam. Two faces smiled in the mirror that day!

One face was dark and one fair! Two faces smiled out of the mirror's face—Two souls rose to God in prayer!

The years sped by like leaves in the wind. New faces smiled in the glass. The stately room echoed with life and mirth.

As gay feet pass and repass. The years go by as children's children smile. Into the mirror of old!

Then a white-haired man and woman look in—Their story of life is told. Still the mirror hangs on the stately wall—

Never its secrets doth tell—It has looked on life, it has looked on death. When there came the last farewell.

It has seen the beauty of faces fair—In June when the roses blow! In its heart are hidden life's treasures rare—

And Dreams of the long ago!

The following letter was written by Private Joseph C. Flanders, now in France, to his sister, Mrs. Raymond McAllister, of East Stoneham:

Somewhere in France, Oct. 10, '18.

My dear sister: I received your very welcome letter last Friday, and was very glad to get it. You can't imagine how glad we are to get mail from the good old U. S. A. and especially from our own folks.

I got one from you dated August 28, and one Sept. 14. I have received one or more from all the folks.

There isn't very much to write, for it is rather quiet here now and of course our letters have to be censored, so we have to be careful what we write.

I am getting along fine and in the best of health.

We have very good food and plenty of it, lots of fresh meat, good steak sometimes, coffee or cocoa served with every meal, and plenty of sugar in it, and white bread, too. But of course we don't have butter very often, but we don't mind that at all.

I live in a "dug-out" and it is very comfortable, there are ten bunks in it and I am fortunate in having a lower one and right near the stove too. Yes, we have a German dug-out, and although it makes it does very well. Of course we can't expect it to be perfect because it is German.

The roof and walls of our dug-outs are about five feet thick and made of cement, stone and logs, so we don't worry much about the shells coming through.

We are not so very near the front now, for the front has moved ahead so in the last few weeks that we are now quite a ways in the rear. It has been rather quiet here for the past few days with the exceptions of air fights, and they are so common that we don't pay much attention to them. We got shelled one day a little while ago, good and proper, but we moved to another place the next day and no one got hurt. We were living in "pup tents" then and we stayed in dug-outs that night and lucky we did, for they pieces, one of our company got mixed up with some hand grenades or a mine or something yesterday and there was one killed and five others wounded, one of them got the top of his head blown off and last night he sat on his cot and smoked a cigarette, but they don't think he will live.

No, Ona, there is nothing you can send me for you are not allowed to and besides, I have enough to smoke and everything.

The Salvation Army opened up a small place here yesterday and we were able to buy quite a number of things such as chocolate bars, canned stuff, tooth paste, cookies, etc., and it cost us very little, too. They do an awful lot of good over here and they don't get half the credit that they deserve. Why, some of the girls in the Salvation Army are right up to the front making doughnuts and pies for the boys and right under shell fire too.

This country isn't so awful bad when it doesn't rain, but at this time of the year it rains about all of the time and the mud is fierce, it is slimy, clayey kind and it sticks right to you, it is almost impossible to wash it off.

Well, Ona, I guess this will be all for this time, but I will write again soon. Give my love to Rayn and Aunt Lucy and all the rest. Tell them all to write. Now don't worry about me, Ona, for I am all right and shall be home "some time." Lots of love to you and all, your ever loving brother, Joe.

### PARIS HILL

#### Old Land Mark Burned

Thursday afternoon about 3 o'clock, the buildings of Col. E. T. Brown on Paris Hill, consisting of large two-story house, all at and stable at the corner of Main and Lincoln Streets, were entirely destroyed by fire. It is supposed that the blaze started from the kitchen chimney, in the upper part of the ell. The chimney had burned out earlier in the day.

A hose was laid from the standpipe of the Paris Hill Water Co.'s system across the street, but this is on a small main with not enough force to subdue a large fire under headway. Later a connection was made with another standpipe near the Union House, from which a little better pressure was secured, but not in season to avail against the flames.

Men and women turned out and assisted in clearing the house. The large building was furnished from bottom to top, including a large amount of furniture crated in the stable. The larger part of the contents of the building were taken out, though it was not possible to get in to the attic and some things were lost in other parts of the buildings. The furniture was taken out in fairly good condition.

With practically little wind, no other property was endangered. It is probable also that the trees in front of the house on both streets, though scorched a little on the side toward the buildings, are not killed.

There was insurance on the buildings, though not by any means enough to replace them at present prices. The buildings burned were erected by Col. Brown's father, the late Dr. Thomas H. Brown, to replace a set which were burned by lightning in July, 1878. The house destroyed at that time was one of the substantial old mansions of the place and the lot has been occupied since the early days of the village.

## OUR SERVICE And What it Means to You

We Have a Joint Interest in This Community

And We Wish to Join With You in Every Way to Promote the Communities' Interests

In a sense, this community is like a farm—it pays according to the way in which it is treated.

The successful farmer co-operates with his farm.

Knowing that certain soil elements are necessary to healthy crop growth, he sees to it that these elements are maintained.

The same principle holds good in community development.

Our community is composed of two closely-related elements—town and country.

They are both essential to healthy community growth. Neglect or mistreatment of either of them by the other affects both—it injures the whole community. Both elements must be maintained.

Accomplishing this is simply a matter of sincere co-operation among all of us in this community.

Our idea of our own part to play for community good in a business way is—

To sell only such implements as have the quality to give high grade results in the field.

To consider good performance by our implements as a part of our obligation.

To sell every implement at a fair price.

To practice the square deal towards each and every customer.

On this basis we invite the co-operation of every farmer in this community.

**Soldiers' Letters**Letter to Mrs. Maggie Dyer of Norway  
from her brother Louis Henry, an aviator  
in the French army.My darling sister: Receiving no news  
from you for quite a while, I am writing  
these few lines and hope they will find  
you well also the children. Well, dear we  
are still up in the lines giving the best  
of thrashings to the Germans. It makes  
about forty days that we have been at  
this game. Our own regiment has ad-  
vanced between fifty and sixty miles now  
it is harder as it has been rainy and we  
are up to our necks in mud and it is get-  
ting colder but with it all the spirit is as  
good as ever. Of course for my part I  
don't mind for I know of a fellow who  
will soon be going to Blythe and hopes  
to have a good time. I suppose you  
know who I mean. I would rather come  
to you dear sister but it is not possible.Well, dear, we are very proud to fight  
with the Americans. They are the brav-  
est and best lot out. I have found it out  
for myself. I reckon they are a better  
character than the Englishman.  
About Alf I reckon if he gets a con-  
valescence he may go home. They are all  
eager to see him. By the way they are  
all in the best of health.Dad is as well as ever, very busy work-  
ing for Government. He is as anxious  
as I for the result of the war. Well  
cheer up dear sister and don't get down-  
hearted. I will close by sending you my  
best wishes and kisses for your little fam-  
ily. Your loving brother, Louis.The following letter was written by  
Sergt. A. C. Brackett of Co. D 103 Infan-  
try, American Expeditionary Forces, to  
his sister, Mrs. Clifford Frost.Dear Sister: Your letter of Aug. 11  
arrived yesterday and glad to hear from  
you again. I have just been looking over  
a lot of trenches and dug-outs the Bochs  
left in a sort of a hurry. They are cer-  
tainly beasts for dirt. They left all  
kinds of stuff from cannon to blackbread.  
You want to get that notion that I'm  
wounded out of your head.Alfred Dyer is back to the company  
again now. We have had a pay day, but  
we are in such a place we can't buy as  
much as a paper. Hope I do help you  
eat some of those preserves. It would  
be fine with some of that cake. When  
we renew the Bochs shells whizz around  
every night, sometimes we can't figure  
out if it is Bochs shells exploding or our  
own guns firing.This paper and envelope is Bochs, but  
it is the best I can do so hope you will ex-  
cuse me for it. The paper is really the  
last June with the photos in it only  
reached me a few days ago. They look  
good to me.How is Pete and all the rest of the  
folks. Wallace must have changed  
since I saw him last.How is business down to the shop.  
Would like to take a vacation down to  
my old camp for a while but no such good  
luck for me I guess. Well, as I can't  
seem to think of any more to write, will  
have to stop hoping this finds you all well  
and that you write soon and often.Serg. A. C. Brackett, 67541

been through. They are the gamiest  
bunch I have ever seen. New England  
men are raising good fighting stock so I  
am proud to be with them. I missed out  
on the big drive, just my luck for it was  
the jam we all had looked forward to.The boys went out the other night over  
the top. After gaining their objective they  
bagged some game and returned with a  
brace of prisoners. Company D has a  
good name over here and what is more,  
old Fritz cannot begin to stand a show.  
Even the famous Prussians have been  
made to turn tail many times.Life is very strenuous just now. I  
have seen our boys go out and not get  
a chance to get a wash or shave for many  
days. They would be mighty lucky if they  
got even enough drinking water. However,  
they take it all with a smile. I still  
have my old job as cook and looking  
after the mess. I had high hope that I  
might lose the job while in the hospital,  
but nothing doing like that. It is a  
small job taking care of two hundred  
and three hundred men with hearty ap-  
petites. One thing is sure, the U. S.  
puts out fine rations with only the best  
material. Of course there are times we  
cannot get much and have to go short,  
owing to transportation difficulties.I still have the same cooks, Ernest  
Mattor, Scotty Palmer, Red McMahon  
and Albert Thompson. Good cooks are  
the main stay in an army and I think I  
have the best ever. It is nothing for  
them to fry 1,000 doughnuts or flap-jacks  
for breakfast, besides other stuff.A cook's life is no cinch now days.  
There is not much time left for sleep  
when a drive is on. It is nothing but  
load and unload in rapid succession. 13  
mules are allowed each company to truck  
rations and Q. M. stores.Orville Palmer is cooking for the Ma-  
jor and making good. We are continu-  
ally scrapping over rations for he claims  
I won't allow him enough material for  
his important station. This is all in fun.I guess Norway is the same little town,  
but we all want to get back just the same.  
Our great desire is to wash our clothes  
in the Rhine and dry them on the Hin-  
denburg line, then we should worry.Extracts from letters to Mr. and Mrs.  
J. H. Wiles, Norway, written by their  
son, Priv. Currie Wiles, Co. M, 118th In-  
fantry, American E. A. P. O. 765.  
Dear folks: Am still on top and well  
and happy and I like this life as well as  
I ever did and will be glad when it will  
be over. The other night I received a  
bunch of mail and this is the first chance  
that I have had to write.Just think of it, twelve letters in one  
day! I sit up in my bunk half of the  
night reading them by candle light, but  
believe me, I was glad to get mail if it  
did come in a bunch, but I haven't got  
any newspapers yet. You must excuse  
poor writing and crooked lines for I am  
getting dark in this room where I am.  
Jake.Dear folks: I received your letter No.  
1, August 4, another August 5, but it  
was not numbered. I was glad to get  
it just the same and was glad to hear  
that you caught some peas and I hope  
that I will be home soon to help eat some  
of them, and berries too. I had quite  
a lot of blackberries, but no cream and  
sugar, on them, but they were nice and  
sweet, and that is all the berries I havehad, but I am satisfied. Just read No. 2  
letter over and I got the both of them  
together, sorry it is so rainy over there.  
We got some wet weather here, too. It  
is raining to-day and we are not doing  
anything but we have to stick around our  
bunkers so I am writing a few lines, and  
believe me, I would like to be on the old  
job right now, but I am too far away at  
present. Louisa told me about Dad and  
her going berrying and I would like to  
have been with them, but by what you  
folks say there were enough over there,  
but I hope that I will be able to go over  
and come to think of it, it is hunting  
time, but we are not hunting birds and  
rabbits, larger game and a bigger gain.  
Jake.Dear folks: Once more for a little  
chat to let you know that I am feeling  
the same as ever and like this life the  
same as ever. The war news look fav-  
orable all the time these days, and Austria  
wants to get out of it pretty bad, here's  
hoping that she does before long.This is the eighth letter that I have  
written to-day, and I bought a paper and  
read part of that. I am getting am-  
bitious all of a sudden, but I am afraid  
it won't last long, but I had a good  
chance to write to-day so took the best  
of the time. I may not get as good a  
chance for a couple of weeks. It is too  
bad about Mr. Richardson's farm build-  
ings. Jake.Dear folks: Here it is another Sun-  
day and it is cloudy and may rain before  
night. It is near noon here now, it is  
about six a. m. there.It is funny though that I don't get  
any of those papers that you folks send.  
I asked the 1st Sergeant about it and he  
said that none had come for me. Am  
glad to hear that you are doing well  
this summer and I hope that I will be  
back before the end of the winter. It  
doesn't seem as if this war could last  
much longer, hope not. Jake.Hello Father: Was glad to hear from  
you and glad to know that you are get-  
ting along so well. I suppose by this  
time you have got your gardens pretty  
well cleaned up. Wish that I could have  
been home to help you and to eat some of  
those peas and corn and other good  
things that grow in the garden. I sup-  
pose that the fair has come and gone a  
couple of weeks ago and business was  
rushing on the fair grounds the same as  
ever I have missed lots of things this  
summer at home, but gained it over here.  
I am seeing some of the country and  
it is really nice to go back to the good  
old U. S. any time that they say we  
can, but I am well and getting along O.  
K. Have been in the trenches twice,  
(front line), and haven't seen a hun yet,  
only prisoners.Are you going to put in any apples?  
You always do I suppose that you will  
this fall and if I am not at home to help  
eat them, I may be before the end of the  
winter. "Nuf sed" this time. With  
love, Jake.Letter from Cook Orville M. Palmer,  
1st Battalion Headquarters, 103 U. S.  
Infantry, France, to his sister, Mrs. Carl  
T. Post of Norway.My dear sister: A few lines this af-  
ternoon. We have got back I guess to  
what they call a rest camp, but there is  
not much rest during the day, but we have  
a good night's sleep. We can't hear  
the boom of the old cannon now. It  
seems funny because it was over six months  
that we could hear them day and night,  
but they were not much bother unless  
Fritz came too near with his and be-  
lieve me, he is a pretty good shot with his  
little 77 and 88, he have me, Edith. Eye  
was made me push my little nose in the  
dirt many a time, but I have beaten him  
out so far. My nearest one was one  
night when I was unloading my team  
that had my things on it and Fritzie  
dropped two, one on each side of the road  
and he got the teamster's horse, but I  
was lucky. I laid right beside the horse  
and bet I wasn't thicker than the paper  
that I am writing on.Well, Edith, I suppose that Lester has  
got back home by this time, I only hope  
so. He can tell you just what has hap-  
pened while he was here. He was a  
lucky boy. He left just a little before  
the boys went over the top. He didn't  
want to go but I told him he was lucky.  
The sergeant in Co. C that was going with  
Lester did not get his order before he  
went over and he was one of the first to  
be killed. Scott and myself did not have  
to go over the top, but they made us do  
some great digging.Scott is not in the same town that I am  
now, but it is only about three miles to  
where he is. I am going to get a horse  
and go up and see him. The town we  
came from were almost together about  
a two minute walk.Say, I got a letter from John Hall  
(young) and he said he heard that Scott  
weighed 200 and some pounds. I don't  
know just how many, but he is not quite  
as fat as that. Well, sister, I will have  
to close this time, hoping these few lines  
will find you in better health. Lots of  
love for all, Bushie.We received the following letter Nov.  
6 from Corporal George E. Frost of Nor-  
way.Lakewood, N. J., U. S. Gen'l Hosp. 9,  
Nov. 3rd, 1918.

To Editor Oxford Co. Advertiser:

It gives me great pleasure to be able  
to write a few lines of appreciation of  
my home town paper having been absent  
for over a year at the front in France.  
One of the most enjoyable experiences  
during my service there was the advent  
of the Advertiser for I was always as-  
sured of the hearty cooperation of the  
people back home with the boys at the  
front thro' its columns. I was assured  
of the fact that they "bought as we  
fought," that we were backed up by  
an invincible army of patriotic citizens  
that "gave until it hurt" that we might  
prosecute the kind of a war that makes  
for a lasting peace between ourselves  
and all nations. The kind of war  
changes the German emperor's dream of  
world dominion to the horrible night-  
mare of over-whelming defeat.To be sure it has cost a great many  
lives of our young men but their sacrifice  
was not made in vain. They died that  
we might continue to enjoy the liberty  
our forefathers fought and died to ob-  
tain and the names of Seichprey, Belleau-  
wood and Cantigny will go down in his-  
tory as a worthy parallel to those of Get-  
tysburg and Yorktown.An incident that happened at the oc-  
cupation of Belleauwood by the Ameri-  
can 6th Division in July just prior to the  
great counter offensive launched by the  
allied armies of which the 26th was a un-  
it, will serve to illustrate the enthusiasm  
shown by our boys over the cooperation  
of their "main reserves" the ammu-  
nition workers here at home. Among the  
shells that were rushed up to a certainbattery of "75's" there was one that  
had an inscription scratched on the case  
by some sharp instrument, probably a  
pocket-knife, which ran something like  
this. "Present this little token of our  
esteem to the 'All Highest' at the time  
it will do the most good," signed The  
American Crucible Steel Workers, New-  
ark, N. J. With a yell that could have  
been heard a mile away, under ordinary cir-  
cumstances the breach of the gun was  
thrown open the shell shoved home, the  
breach again closed and in about three  
seconds with a deafening roar the "New-  
ark token" lost no time in finding the  
place inside Hun lines on the hillside two  
hundred distant miles, with another savage  
howl it proceeded to rip up the landscape  
in a very "military manner." I'll ven-  
ture to say it "did the most good," as it  
helped pave the way for our boys who  
went "over the top" three days later  
and gained their objective in less than two  
hours of stubborn fighting against hidden  
machine gun nests and trench-mortar  
fire.I was in France a year as a member of  
Co. B-108d Infantry from Rumford and  
was over six months in the advance pos-  
itions and have had the opportunity to  
observe the situation at close range and  
I know that the effects of the American  
Liberty Loans as applied by the Ameri-  
can Expeditionary Forces against the  
Huns are disastrous in the extreme and  
are surely forcing them to the wall.**BROWNFIELD**Lena Ingersoll was operated on at her

## RESOLUTIONS OF SYMPATHY

Death having entered our midst, and home to the Great Beyond, Edith Rogers Hobson, a member of Evergreen Rebekah Lodge No. 15, I. O. O. F., our beloved sister passed through a long and distressing illness, was always cheerful and made the home bright and happy with her thoughtfulness and care.

Resolved, that to the husband and daughter, upon whom this affliction falls most heavily, the members of Evergreen Lodge feel to tender our heartfelt sympathy and love, knowing that words are vain and can do but little toward alleviating the burden of sorrow now resting upon them through the loss of a dear wife and mother, and we can only commend them to Him whose rulings are ever right.

Resolved, that we draw our charter for 30 days, and that these resolutions be published in the Norway Advertiser, a copy sent to the family of our departed sister, and one inserted on the records of our lodge.

'Tis hard to break the tender cord  
'Tis harder still to sever the bond,  
Must we forever part?

Dear Sister, we have placed thee in  
The peaceful grave's embrace,  
But thy memory will be cherished  
'Till we see in Heaven thy face.

As the Reapers death having entered our Grange and taken to the Great Beyond, our brother Gratian D. Ring, we the members of Suncoast Grange No. 140 do humbly extend to the bereaved wife and children our heartfelt sympathy and love. We shall miss his kindly face and glad hand clasp.

Therefore be it resolved that in the death of our beloved brother Suncoast Grange has met with a loss. That the removal of such a life from our midst leaves a vacancy and shadow that will be deeply realized by the community.

Therefore be it resolved that a copy of these resolutions be sent to the family, one placed upon our records, one sent to the Norway Advertiser for publication and our charter be draped for thirty days.

### WAR LOAN ORGANIZATION

The Government's War Loan Organizations are now definitely brought together under the supervision of the Federal Reserve Bank. Charles A. Morse, Governor of this Federal Reserve District, issues instructions to both Liberty Loan and War Savings state organizations calling for an immediate speeding up of stamp sales and pledges. Governor Morse says that, whatever the outcome of the war, the Government vitally needs the funds which the War Savings Stamps are to provide, and asks that every outstanding pledge be fulfilled, and additional sales made to complete the quota of every community. State Director Herbert J. Brown has wired this message to local W. S. S. organizations in Maine, and hopes to see an immediate response, and a sustained increase in pressure all along the line for the balance of the year. It is known that the money provided by each Liberty Loan is largely used for the short-term loan between the Government and the State organizations; and to pay other obligations incurred pending the sale of the bonds. The sale of the War Savings Stamps is required to meet the imperative demands of war-financing, and Governor Morse urges both War Savings and Liberty Loan organizations to devote their best efforts to putting the Stamp-sales up to the full quota.

The Secretary of the Treasury has consolidated the organizations for War Savings by placing the State Directors of War Savings under the direction of the Federal Reserve Banks, the State organization in each Federal Reserve District being placed under the directions of the Federal Reserve Bank of the district in which the State is located.

You are requested to take effective measures at once to insure the complete fulfillment of all War Savings pledges which have been procured up to the present time, and also to stimulate sales of Stamps to the very utmost. Whatever the immediate outcome of the war may be, the Government financially will require that each community allotment of War Savings should be filled.

It is the earnest wish that this district, which responded so patriotically to every war appeal, should not be surpassed by any other district in War Savings. In order to accomplish this every community should, for the balance of the year, devote its energies to the utmost in systematic saving and investing in Government securities, of which the War Savings certificates and Stamps are an important division.

**Winter Lyceum Course**  
The first of the series of five entertainments for the benefit of the Red Cross will be ushered in by S. Platt Jones, the famous humorist and character artist. This same Jones has a list of highly complimentary press notices that would fill all the columns of the Norway Advertiser. He is called the funniest man of his tribe; being able to produce more mirth and merriment in two hours than the average entertainer can in two weeks.

He is a whole antidote for the most severe attack of "ennui" and "blues" that ever afflicted an individual. It would seem that war worryment is about over and that the time for rejoicing is now. Already the signs of world peace are plainly visible, so why not turn out in force, fill the Opera House and laugh with Jones? On Wednesday, Nov. 13th at 8:15 p. m. the Norway Opera House. The Red Cross will receive every dollar of the net results from these five entertainments.

## WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I am able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."

—Mrs. ALBERT SULTZ, 603 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "I am so nervous, I cannot sleep," or "it seems as though I should fly." Such women should profit by Mrs. Sultz's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for all ailments.

well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."

We have wood and coal heaters from \$3.50 to \$65.00 and furnaces from \$60 to \$250. Examine our Glenwood Base Heater, the stove that is different. Burns either wood or coal. Austria wants something to eat and she doesn't care a continental dam! how she gets it, and we must be very careful not to allow our hard earned victories to be stolen away from us by diplomacy and propaganda. We must fight until the Germans are wiped off the face of the earth.

"Unconditional surrender" is what we want and must have. It may be barbaric—the desire of the conqueror to eradicate all trace of the conquered.

The defeated must be made to forget the past. The palaces of the Kaiser and the fashionable avenue "Unter den Linden" should be nothing but ruins.

Frank Crane suggests that a German officer be hanged in each of the Belgian and French towns they have devastated, and Elbert Hubbard wants one for East Aurora next 4th of July in memory of the Lusitania.

This peace talk is only a play for more time. Given time they will reorganize and the war will be prolonged. The latest sport of the submarines is to tie a life boat full of survivors to the tail of the submarine then submerge dragging the boat under. There should be no talk or thought of peace till the Kaiser and his gang are driven from the earth. One of the last "cussed" things they have done is to take the civilian population along with them—as slaves of course. Every day some new atrocities are reported. None but those who have lived in Germany can realize the bitterness of defeat to the nation who boasted and believed that their fighting force was invincible.

I believe "Unconditional surrender" and the hoisting a white flag by Germany should be demanded by the world, and no more parleying with the criminal in the Kaiser Bill. I have had dock, alias Kaiser Bill, have had much experience in criminal courts and the criminal stands in silence and listens to his sentence, and there should be no exception made with the greatest criminal of all ages, that "Cut Throat" Kaiser Bill.

I saw this morning President Wilson's last word to Berlin is "SURRENDER" and so say we all.

That disinterested patriot "Ananias" Teddy Roosevelt complains that President Wilson has changed his mind. The Great I AM Teddy is supposed never to change his. For example when he called that great and good man Thomas Paine "A filthy little Atheist" although it was proven to be an infamous lie he never retracted. But he did change on the question of suffrage for women when he found that they controlled a big vote, Amen.

It is apparent to us all that Teddy wants the nomination for the Presidency by the Republican party although he has for many years denied that he was a Republican, but to come out now and say "I am a Republican" would be to change his mind so he says nothing about it trusting to his followers to say that he is all right politically. But I say that if he is a Republican he has done mighty little work at his trade in the last twelve years. He has been writing some amusing articles, one especially, "How to Fool an Ostrich." I should have been more interested if he had told us how to fool the voters. He may be able to fool part of the voters all the time, and all of the voters part of the time, but we must be thankful that he cannot fool all of the voters all the time.

## MARILLA RICKER VIEWS PEACE TALK, SURRENDER ONLY THING ACCEPTABLE, ATTITUDE OF TEDDY ROOSEVELT

I saw that President Wilson told Austria "Unconditional Surrender Must Not Be Autonomous, but Independent." Autonomous means the RIGHT or power of self government. There is a great difference between the right to do things and the power. I learned long ago that I, as a law abiding tax-paying citizen of New Hampshire, had the right of suffrage, but not the power to exercise it. That is why I was "scared stiff" when I thought our President was to parley with that Pirate Kaiser Bill.

In my opinion diplomacy is "cussed" stuff and the only diplomacy that pleases me was used by Major Charles Whittlesey when he and his battalion which belonged to the 77th Division were "lost". They were surrounded by Germans, had no provisions and but little ammunition, and when demanded to surrender his reply was "Go to Hell." If I had been President of the United States when Kaiser Bill asked for armistice, which meant only a respite, so that he could take breath and get a new hold, he would have received the Whittlesey brand of diplomacy.

We see there is in diplomatic circles a great gulf between the theoretical acceptance of principles and actual acceptance of their application. Right means that which is correct, the straight course, that which is warranted by moral approval. Power means the faculty of doing or performing something, ability to do. I understand the English language, and I understand myself I do, all this talk is as plain as tumbledum and twiddledie. Prussia wants time. The Kaiser is not "licked" yet. When he is he will surrender.

Austria wants something to eat and she doesn't care a continental dam! how she gets it, and we must be very careful not to allow our hard earned victories to be stolen away from us by diplomacy and propaganda. We must fight until the Germans are wiped off the face of the earth. "Unconditional surrender" is what we want and must have. The palaces of the Kaiser and the fashionable avenue "Unter den Linden" should be nothing but ruins. Frank Crane suggests that a German officer be hanged in each of the Belgian and French towns they have devastated, and Elbert Hubbard wants one for East Aurora next 4th of July in memory of the Lusitania.

This peace talk is only a play for more time. Given time they will reorganize and the war will be prolonged. The latest sport of the submarines is to tie a life boat full of survivors to the tail of the submarine then submerge dragging the boat under. There should be no talk or thought of peace till the Kaiser and his gang are driven from the earth. One of the last "cussed" things they have done is to take the civilian population along with them—as slaves of course. Every day some new atrocities are reported. None but those who have lived in Germany can realize the bitterness of defeat to the nation who boasted and believed that their fighting force was invincible.

I believe "Unconditional surrender" and the hoisting a white flag by Germany should be demanded by the world, and no more parleying with the criminal in the Kaiser Bill. I have had dock, alias Kaiser Bill, have had much experience in criminal courts and the criminal stands in silence and listens to his sentence, and there should be no exception made with the greatest criminal of all ages, that "Cut Throat" Kaiser Bill.

I saw this morning President Wilson's last word to Berlin is "SURRENDER" and so say we all.

That disinterested patriot "Ananias" Teddy Roosevelt complains that President Wilson has changed his mind. The Great I AM Teddy is supposed never to change his. For example when he called that great and good man Thomas Paine "A filthy little Atheist" although it was proven to be an infamous lie he never retracted. But he did change on the question of suffrage for women when he found that they controlled a big vote, Amen.

It is apparent to us all that Teddy wants the nomination for the Presidency by the Republican party although he has for many years denied that he was a Republican, but to come out now and say "I am a Republican" would be to change his mind so he says nothing about it trusting to his followers to say that he is all right politically. But I say that if he is a Republican he has done mighty little work at his trade in the last twelve years. He has been writing some amusing articles, one especially, "How to Fool an Ostrich." I should have been more interested if he had told us how to fool the voters. He may be able to fool part of the voters all the time, and all of the voters part of the time, but we must be thankful that he cannot fool all of the voters all the time.

## DENMARK

Mrs. Charles Seely  
Mrs. Frances H., wife of Charles Seely, passed away at her late home Tuesday, October 29, aged 67 years, 6 days. After a few days' illness of bronchial pneumonia, following the grip, funeral services were held at the house Thursday at 12 o'clock. Rev. Mr. Plummer of Cornish was the officiating clergyman, who spoke words of comfort to the bereaved family. Two selections, "Sometime We'll Understand" and "Some Blessed Day" were sweetly rendered by Mrs. Plummer.

A profusion of beautiful flowers from relatives both here and away were silent testimonials of the high esteem of the deceased in whose passing away the community has sustained a great loss for truly, "none knew her but to love her." The interment took place at Steep Falls. Mrs. Seely was the daughter of the late Abner and Phoebe (Witham) Allen of Denmark, where her earlier life was passed. After her marriage, she went to live at Cambridge and Somerville, Mass., where thirty years of their wedded life were passed, moving back to Denmark about two years ago to their pleasant home, the "Robinson" farm.

Besides a husband, three children are left to mourn the loss of a devoted mother. They are Emma, wife of Clarence J. Horton of West Somerville; Linus C. of Everett and Burr W., who lived with his parents. Also one grandchild, Allen Linus Seely, and three nephews, Maynard and Carroll Wentworth of this village and Blynn Allen of Augusta.

The sick ones are nearly all convalescent at present and we are hoping the worst is over, after the experience of the past few weeks. At one time the past week three of our townspeople lay dead.

## Standers, Walkers, "Gets-It" for Corns

World Has Never Known Its Equal.

"What will get rid of my corn?" The answer has been made by millions—there's only one corn-remover that you can bank on, that's absolutely certain, that makes any corn

Corn-Pain Is Eased—the Corn Is Doomed!

on earth peel right off like a banana skin—and that's magic "Gets-It." Tight shoes and dancing even when you have a corn need not disturb you if you apply a few drops of "Gets-It" on the corn or callus. You want a corn-peeler, not a corn-fooler. You don't have to fool with corns—you peel them right off with your fingers by using "Gets-It." Cutting makes corns grow and bleed. Why use irritating salves or make a bundle of your toe with tape or bandages? Why putter and still have the corn? Use "Gets-It"—your corn-pain is over, the corn is a "gone" sure as the sun rises. "Gets-It" is the guaranteed, money-back corn-remover, the only sure way, costs but a trifle, any drug store. M'd by E. Lawrence & Co., Chicago, Ill.
